ADMINISTRATIVE NOTICE NO. 101

ALLOTMENTS COVERING FEDERAL EMPLOYEES PAY INCREASES

Public Law 900 provides in part that each officer and employee of the Federal Government whose rate of compensation is increased by Sec. 2 (Classification Act rates), Sec. 3 (Custom Clerks and Immigrant Inspectors), Sec. 4 (Statutory Pay Rates in the Executive Branch), Sec. 5 (Legislative Branch Pay Rates), Sec. 6 (Judicial Branch Pay Rates) of the Federal Pay Act of 1946 shall receive additional compensation at the rate of \$330 per annum (employees paid on an hourly or part-time basis shall receive additional compensation at the rate of 20¢ per hour); that Sec. 603(b) of the Federal Employees Pay Act of 1945, as amended, is amended by striking out \$10,000 where it first appears in such section and inserting in lieu thereof \$10,330; that Sec. 7(b) of the Federal Employees Pay Act of 1946 is amended by striking out \$10,000 and inserting in lieu thereof \$10,330 and that such increases in compensation shall take effect on the first day of the first pay period following June 30, 1948.

No funds were appropriated for the additional costs which would be incurred because of such base pay increases. However, the Bureau of the Budget has approved the apportionment of administrative expense funds for the current fiscal year in excess of the amounts currently available to reflect the additional funds required for the increases in base pay.

Except for the items listed below, allotments of funds for administrative expenses for the fiscal year 1949 have been increased to provide for the increase of base pay costs applicable to the fiscal year. The increases of allotments are, however, contingent upon the submission and approval of a deficiency appropriation sufficient to cover the cost of the increase in base pay authorized. Whenever program changes take place involving adjustments in personal services, corresponding revisions will be made in the funds allotted for base pay increases. The funds allotted for base pay increases may not be used by the allottee for any other purpose.

No increases have been made in the direct allotments from Research and Marketing Act funds for the additional pay costs. However, it is anticipated that additional funds will be made available to PMA at a later date to cover deficits incurred as a result of such costs.

Direct allotments under Trust Funds for inspection and grading activities (12X8015) will not include amounts for additional pay costs. Branches which have activities financed from these funds should immediately review existing fees and initiate prompt action to increase rates and revise cooperative agreements as necessary to cover the additional pay costs.

Direct allotments from Working Funds will not be increased to cover pay costs until additional funds are made available to PMA from the agency for which the work is being performed.
